X701 A1

Absorber

Complies with 14387

Absorber

The **X701 A1** filter is a reusable product for half masks and two-filter masks. The **X701 A1** filter with bayonet connector protects against organic vapours and gases with a boiling point above 65°C (brown colour) at a volumetric concentration in air not exceeding 0.1%. The design of the casing is hinged (backwards), which provides a better field of vision. The **X701 A1** filter has a bayonet connector enabling connection to X6 and X7 series half masks and X8 series full face masks.

Restrictions and storage

Do not use in an environment where the oxygen concentration is less than 19.5% and in the presence of unknown gases. Store in the original packaging, together with the instructions, without the purification elements connected, at a temperature from -20°C to +30°C and humidity RH<80%. Protect from direct sunlight.

Shelf life:

Properly stored and originally packaged filters have a shelf life of 5 years from the date of manufacture. The date of manufacture is indicated on the absorber and on the packaging.

Housing: Polypropylene

Packaging:

Net weight 1 pc.: 81 g
Unit packaging dimensions: 225/120/25 mm
Dimensions of master carton: 245/605/210 mm
Quantity per master carton: 30
