# X703 ABEK1

## Absorber

Compiles with EN 14387

### Absorber

Gas filter **X703 ABEK1** is a reusable product for half masks and two-filter masks. The **X703 ABEK1** absorber with bayonet connector protects against organic vapours and gases with a boiling point above 65°C (brown), inorganic vapours and gases, with the exception of carbon monoxide (grey), sulphur dioxide and acid vapours and gases (yellow), ammonia and ammonia derivatives (green) at a concentration not exceeding 0.1% by volume in air. The rearward tilting design provides a better field of view. The **X703 ABEK1** filter has a bayonet connector allowing it to be combined with X6 and X7 series half masks and X8 series full face masks.

### Restrictions and storage

Do not use in an environment where the oxygen concentration is less than 19.5% and in the presence of unknown gases. Store in the original packaging, together with the instructions, without the purification elements connected, at a temperature from -20°C to +30°C and humidity RH<80%. Protect from direct sunlight.

### Shelf life:

Properly stored and originally packaged filters have a shelf life of 5 years from the date of manufacture. The date of manufacture is indicated on the absorber and on the packaging.

### Housing: Polypropylene

### Packaging:

Net weight 1 pc.: 105 g  
Unit packaging dimensions: 225/120/30 mm  
Dimensions of master carton: 245/595/245 mm  
Quantity per master carton: 30 pairs
